## IMPROVED FORMULA

*Advanced Support for Your  
Bones, Heart, and Immune System*

Bones

Immune

Heart

**SR Immuno Vit Improved Formula** is a next-generation supplement designed to fortify your body's core systems against the demands of daily life and aging – providing essential, targeted support for cardiovascular, bone, and immune wellness from within!

This advanced formulation pairs two essential, highly active vitamins – Vitamins D3 and K2 – in their most effective forms. Now upgraded with a nutrient-rich Rapeseed Oil delivery system and encapsulated in ground-breaking plant-based softgel technology, it ensures maximum stability and lasting benefits throughout the day.

### KEY INGREDIENTS

- **Cholecalciferol (Vitamin D3) – 5,000 IU**

Utilizing the body's preferred form of Vitamin D at a potent 5,000 IU dosage, this goes beyond simple calcium absorption. It functions like a hormone to fine-tune immune defenses, helping to reduce inflammation and protect delicate nerve cells from daily stress.

- **Menaquinone-7 (Vitamin K2) – 100 mcg**

This superior form of Vitamin K2 stays active in the body longer than standard forms. It acts as the essential partner to Vitamin D3, ensuring that calcium is directed properly to your bones rather than depositing in arteries.

- **Rapeseed Oil (641.3 mg)**

Rich in Long-Chain Triglycerides (LCTs), this carrier oil is absorbed slowly by the digestive system. This promotes a gradual, sustained release of vitamins into the bloodstream, keeping nutrient levels steady.

- **Veggiegel Mix Softgel**

The formula is encapsulated in a cutting-edge, non-GMO pea starch shell. This vegan-friendly technology offers superior resistance to moisture and heat, ensuring nutrients remain as potent as the day they were made.

REVITALISATION

## KEY BENEFITS

### BONE HEALTH & STRENGTH

Vitamin D3 aids in normal bone mineralization to prevent softening, while Vitamin K2 actively directs new calcium to the bone matrix, supporting density and resilience.

### IMMUNE DEFENSE & MODULATION

A potent 5,000 IU dosage of Vitamin D3 interacts directly with immune cells to strengthen antimicrobial effects and help balance inflammatory responses, keeping your defenses robust.

### CARDIOVASCULAR PROTECTION

Vitamin K2 keeps arteries clear by activating proteins that prevent calcium deposits in blood vessel walls. The omega-rich Rapeseed Oil carrier further supports heart health by helping support healthy cholesterol.

### SUSTAINED NUTRIENT RELEASE

The advanced Rapeseed Oil carrier ensures a slow, gradual release of fat-soluble vitamins, maximizing their physiological impact and providing consistent support throughout the day.

## WHO IT'S FOR

- Individuals seeking proactive support for flexible, healthy arteries.
- Adults looking to maintain strong bone density as they age.
- Those requiring robust immune system support, especially during seasonal changes.
- Individuals looking for a highly stable, plant-based vitamin D3 & K2 formulation.

### AVAILABLE IN

Available in 30 softgels per packaging, and 10 softgels per blister strip

### STORAGE

Store below 25°C in a cool dry place, away from humidity, heat and direct sunlight. Keep out of reach of children.

### RECOMMENDED USAGE

1 softgel daily, before or after a meal.

### CONTRAINDICATIONS

Keep out of reach of children.

Consult a healthcare professional before use, particularly if you are pregnant, nursing, have a medical condition, or are taking any prescription medication (including anticoagulants such as Coumadin®/Warfarin).

Do not exceed the recommended daily dose.
